To improve your experience we propose you fun challenges that will help improve your skills.The exercises presented are simple but efficient, this accompanied by daily training, will help you get results quickly, we do not know the limit of these skills, that job is up to you, how far can you go? I hope you check and enjoy this art.Healing with biokinesis is a skill that very few people possess, currently healing through this skill is known as miracles, which were used directly or indirectly, through prayers, prayers or the intense desire to heal a to be loved.Kinexys is a training app, which allows you to gain mastery of biokinesis, this is achieved with sessions of the use of your energy focused on this area. We try to facilitate the learning of these skills, focusing on the practical content, you will see how step by step you will feel different sensations, and with a lot of effort and dedication you will be able to master this skill.Healing is helping, and our goal is to help you, reaching all those people who are waiting for that miracle, I hope we can arrive on time, help us and use your skills to serve others, let's change this world.CONTENT\* Exercises to awaken energy.\* Steps to assemble the psiwheel.\* Exercises with the psiwheel.\* Challenges with the psiwheel.\* Energy control exercises for healing.\* Plant healing.\* Healing in humans.CONSTANT DEVELOPMENTOur goal is to help you develop these skills in a simple way so we constantly update the app with new methods, remains and sections.HELPDo not hesitate to contact us if you need help, or have suggestions. Mar 24, 2021 Version 1.4.14 New telekinesis exercises Why??? Well I love the app and all, I got the psi wheel to move super cool I kinda freaked out, but..... what is causing this? The human body is amazing for what it's abilities are but again why just this why can't we like make things float or anything please add more too it, and make some like, "learn to make things float" or move but otherwise the app is pretty cool :3  I learned to push a thing of tin foil. That's about it the only thing I can do to fire is make it grow and I think dance but any of these other things I can get correct or even do it's good and I like it but I wish with the telekinesis exercises there were more ways to train it like how to push or pull a object besides a psi wheel and with enough practice able to levitate some light weight objects The developer, Yonel Mamani, indicated that the app's privacy practices may include handling of data as described below. For more information, see the developer's privacy policy. The developer does not collect any data from this app. Privacy practices may vary, for example, based on the features you use or your age. Learn More Developer Website App Support Privacy Policy I'm about to head to the gym to film the March Workout, "TT Fat Loss Switch". I don't have any "real workout" planned for myself today. But I'll be deadlifting tomorrow. For beginners, I've added a couple of beginner videos to youtube. This one is from the TT Beginner Total Torso Training 2K11 program => Beginner Turbulence Training Workout Now for something more advanced. Yesterday's Training SWITCH - Try Ladders During some metabolic resistance training such as kettlebell work or barbell complexes, use ascending, descending, or pyramid "ladders" instead of using a set number of repetitions. For example, in a kettlebell swing-pushup-bodyweight row circuit, you could use a descending ladder of 10 reps in round 1, then 9 reps in round 2, etc., until you finish with a round of 1 rep. Today's Kick-butt Mindset Tip Much can be accomplished with a long term vision and resilience to short term setbacks. Not every problem is conquered overnight, but if you persist and never give in, you will succeed. The best SWITCH in mindset is one towards personal responsibility. "You are responsible for your results. You will accept your results without casting blame and you will learn from your mistakes so as to not make the same mistakes again. And then you will move on. That is how you will live and that is why you will succeed." - From "The Winning Investment Habits of Warren Buffet and George Soros" Today's Independence Tip: Take 15-20 minutes and write down exactly how you want your business and life to be. Outline your perfect day. Create your vision. Set the rules. Identify what you will and will not do. Use this personal business philosophy to guide all of your decisions. Know what you want and what you are willing to do to get it. After all..."If you don't know what you want, you end up with a lot you don't." - Doorman, Fight Club. And if you have 30-seconds for a survey, I just have a few quick questions about your thoughts on Internet Independence here => Website Business Independence Survey Off to film, Craig Ballantyne, CSCS, MSBuff Dudes-Hot-Chicks-Transformation Package This content is created and maintained by a third party, and imported onto this page to help users provide their email addresses. You may be able to find more information about this and similar content at piano.io Third edition. Telekinesis, also known as "mind over matter," is real. Defy Your Limits offers what aspiring telekinesis practitioners have long sought, a detailed, tested, step-by-step method to learn exactly how to do it. While many can demonstrate TK, only a few can teach it proficiently in a format like this book.Sean McNamara is a seasoned meditation teacher who learned TK first-hand and teaches others how to actualize it themselves. He has been featured in various shows and the movie "Superhuman: The Invisible Made Visible." This is not a theoretical book. It's a training manual for those who are willing to do what it takes to defy their own limits. When you progress through the final level of training, you will be able to move an object enclosed in glass from a distance of several feet - psychically. You will do so with your carefully and patiently trained mind-body-energy system.This text contains links to the companion website which is filled with video tutorials filmed specifically for practitioners of this training system. Moving matter with the mind is only the beginning. This book is on the cutting edge of personal development, mindfulness, self-help and human performance. The ability taught here makes immediately observable that which self-improvement and power-of-intention books like The Secret and The Law of Attraction have only described - that our mind affects our reality.Defy Your Limits teaches you how to apply this telekinesis method toward your Vision Board, Energy Healing, Meditation, Metaphysical applications, and toward achieving your personal goals. Learn the paranormal ability that sits at the crossroads of science and spirituality. Learn more at www.MindPossible.com. The requested URL was not found on this server.
